

CELL-8 LED Lamp

Description

The CELL-8 is specifically designed as a cost effective replacement for your traditional halogen lamps in most applications. It's as easy as removing the standard MR16 lamp and transformer and replacing it with the CELL-8 lamp and LED driver. Featuring the Mono Lens and small lamp size, the CELL-8 will look almost exactly the same as what you have just replaced. All this is then perfectly matched with a fully mains dimmable LED driver complete with flex and plug for easy installation.

Specification Features

Input Voltage: 240V 50/60Hz
 Power (W): 8W
 IP rating (IP): 44*
